

Honors Biology Cell Respiration Worksheet

Digestion connection:

1. Why do you need to eat food (think about ATP production)?

---

---

---

---

---

---

---

---

2. What organic molecules store energy?

---

---

---

---

---

---

---

---

3. How does each cell in your body get organic monomers they can use for fuel?

---

---

---

---

---

---

---

---

In the process of cell respiration there are some new organic molecules you will encounter:
