

WRITING LETTERS TO THE EDITOR

One of the reasons that our community helps its citizens participate in decisions for the community and express concerns through their local newspaper is to have a platform and outlet for an issue. Letters are edited by the newspaper based on guidelines and standards that we believe are in the best interests of the community.

You are invited to write your own letters to the editor on any issue that you have concerns about. You must write your letter in English and use proper grammar. Each letter must contain at least two arguments that explain your position or concern, as well as a clearly stated position. An opposing argument and explain why you have a better argument. Letters must be written in a "single format".

The structure of your letter should be as follows:

1. **Opening**
2. **Argument one** (clearly state your position and explain why you have a better argument)
3. **Argument two** (clearly state your position and explain why you have a better argument)
4. **Argument three** (clearly state your position and explain why you have a better argument)
5. **Conclusion** (clearly state your position and explain why you have a better argument)

You must also write your letter in a way that is respectful to the community and its members. It is your responsibility to write your letter in a way that is respectful to the community and its members.

PERIPLATE ELPORCE
