

Zero power of any number except 0 is equal to 1

Keep the base, add the exponents.

Zero power of any number except 0 is equal to 1

Keep the base, add the exponents.

Keep the base, subtract the exponents.

$$3^m \cdot 3^n = 3^{m+n} \cdot 3^0$$
$$4^p \cdot 4^q = 4^{p+q} \cdot 4^0$$

$$100^0 = 1$$
$$(-7)^0 = 1$$

Keep the base, subtract the exponents.

$$3^m \cdot 3^n = 3^{m+n} \cdot 3^0$$
$$4^p \cdot 4^q = 4^{p+q} \cdot 4^0$$

$$100^0 = 1$$
$$(-7)^0 = 1$$
