

My best friend.

WRITING

Describing your best friend using personal pronouns, the definite article, and nouns/pron.

I have made the following sentences which I put out and then randomly copy in a group of six for playing in 1990.

Example: my best friend (name) has blonde hair. She is happy. She is tired. She etc.

The children enjoy this and I find that most activities for 8-10 year olds can be somewhat challenging if they are just starting with a language.
