

**Name:**

Geometric Shapes are shapes that have hard edges, are precise, and regular. Organic shapes are usually found in nature and are curvy. In the "Geometric Shapes" box draw examples of geometric shapes. In the "Organic Shapes" box draw examples of organic shapes.

Geometric Shapes

Organic Shapes

Draw the same shape (geometric or organic) in both boxes. In the "Positive Shape" box, color the shape. In the "Negative Shape" box color AROUND the shape.

Positive Shape
