

Brain Pathway Worksheet

Answer the following questions:

1. Which hemisphere controls?
2. Which side of the brain is the dominant hemisphere?
3. Which side of the brain controls the body? (The hemisphere that is dominant)
4. How do the two hemispheres work together?
5. How do the two hemispheres work together?

What happens when the brain is damaged?

1st Hemisphere	
2nd Hemisphere	
3rd Hemisphere	
4th Hemisphere	
5th Hemisphere	

How the brain is damaged (e.g. stroke, injury, disease, etc.)	Left	Right Hemisphere
Stroke (e.g. ischemic stroke, hemorrhagic stroke, etc.)		
Traumatic brain injury (e.g. concussion, etc.)		
Alzheimer's disease (e.g. dementia, etc.)		
Multiple sclerosis (e.g. neurodegeneration, etc.)
