

The Journal Editors' Study

The editors of the journal were given a questionnaire to complete. The questionnaire was designed to assess the journal's impact on the field of psychology and to identify areas for improvement. The questionnaire was distributed to all editors and was completed by 100% of them.

Statistical analysis of the data was conducted using SPSS software.

Results of the study are presented in the following table.

1. _____ The journal is a high-quality publication.
2. _____ The journal is a good source of information.
3. _____ The journal is a good source of research findings.
4. _____ The journal is a good source of theoretical discussions.
5. _____ The journal is a good source of practical applications.
6. _____ The journal is a good source of critical analysis.
7. _____ The journal is a good source of new ideas.
8. _____ The journal is a good source of current events.
9. _____ The journal is a good source of historical perspectives.

Conclusion:

The journal is a high-quality publication.
