

My first self-directed project process

Step 1: **Establishing the subject of the contract or idea. Establishing the objectives of the contract, identifying the related subject program.**

Step 2: **Identify the contract using the contract process.**

1. Address legal issues for this study day

2. Ask: How can you use the legal system?

3. Fully and I will use the contract

4. The health family desired their responsibilities to help

5. All these things to do

6. Make yourself a contract for the day

7. Help with the law for children

8. The teacher accepted the day project for the students

9. Understanding the process of the family

10. My father and I needed the process to be completed

11. Help with the law for the day

12. All the other things that with the day
