

“OFF TO COLLEGE” TREASURE HUNT

Somewhere on campus a treasure awaits you. To find the location of the treasure you need to solve each clue. Some of the clues relate to subjects that are learned here on campus like English and Math. The rest of the clues relate to things on the Dixie College Campus like buildings and statues. The answer to each clue will be a number. Place that answer on the line at the bottom above the corresponding clue number. The numbers on the lines will be a latitude and longitude coordinate that will reveal the location of the treasure within a few feet. The rest will be up to your great treasure hunting skills! If you don't have a GPS device, no worries; you can type latitude and longitude coordinates right into Google maps. If you find the treasure you can let everyone know at www.facebook.com/cryptictreasures. Have fun and enjoy the hunt!

① You should make it your Business to stand and to stare, At a big metal sculpture, how many circles in the air?	② A horse looking skyward with a rider or two What you need is how many buttons on his clothes are in view.	③ English Question: How many adverbs are in the following sentence?
