Cell Theory Worksheet

Name			

1. What two scientists are credited with "inventing" the microscope? 2. What two scientists are credited with "inventing" the microscope? 3. Describe what the English guy looked at. 4. Describe what the Dutch guy looked at. 5. What is an "animaleule? What words do we use today instead of animaleule? 6. Who first called cells "cells?" 7. What are the three assumptions of the cell theory? 8. Explain how the cell theory would change if somehody discovered a Martian creature that did not have cells. 9. Using the internet, research Matthias Schielden and describe what his work contributed to the cell theory. 11. Using the internet, research Rudolph Virchow and describe what his work contributed to the cell theory.		
3. Describe what the English guy looked at. 4. Describe what the Dutch guy looked at. 5. What is an "animaleule? What words do we use today instead of animaleule? 6. Who first called cells "cells?" 7. What are the three assumptions of the cell theory? 8. Explain how the cell theory would change if somebody discovered a Martian creature that did not have cells. 9. Using the internet, research Matthias Schleiden and describe what his work contributed to the cell theory. 10. Using the internet, research Rudolph Virchow and describe what his work contributed to the cell theory.		
4. Describe what the Dutch guy looked at. 5. What is an "animaleule? What words do we use today instead of animaleule? 6. Who first called cells "cells?" 7. What are the three assumptions of the cell theory? 8. Explain how the cell theory would change if somebody discovered a Martian creature that did not have cells. 9. Using the internet, research Matthias Schleiden and describe what his work contributed to the cell theory. 10. Using the internet, research Rudolph Virchow and describe what his work contributed to the cell theory.		
5. What is an "animalcule? What words do we use today instead of animalcule? 6. Who first called cells "cells?" 7. What are the three assumptions of the cell theory? 8. Explain how the cell theory would change if somebody discovered a Martian creature that did not have cells. 9. Using the internet, research Matthias Schleiden and describe what his work contributed to the cell theory. 10.Using the internet, research Rudolph Virchow and describe what his work contributed to the cell theory.	3. Describe what the English guy looked at.	
today instead of animalcule? 6. Who first called cells "cells?" 7. What are the three assumptions of the cell theory? 8. Explain how the cell theory would change if somebody discovered a Martian creature that did not have cells. 9. Using the internet, research Matthias Schleiden and describe what his work contributed to the cell theory. 10.Using the internet, research Rudolph Virchow and describe what his work contributed to the cell theory.	4. Describe what the Dutch guy looked at.	
7. What are the three assumptions of the cell theory? 8. Explain how the cell theory would change if somebody discovered a Martian creature that did not have cells. 9. Using the internet, research Matthias Schleiden and describe what his work contributed to the cell theory. 10. Using the internet, research Rudolph Virchow and describe what his work contributed to the cell theory.		
8. Explain how the cell theory would change if somebody discovered a Martian creature that did not have cells. 9. Using the internet, research Matthias Schleiden and describe what his work contributed to the cell theory. 10.Using the internet, research Rudolph Virchow and describe what his work contributed to the cell theory. 11.Using the internet, research Theodor Schwann and describe what his work contributed to the cell	6. Who first called cells "cells?"	
9. Using the internet, research Matthias Schleiden and describe what his work contributed to the cell theory. 10. Using the internet, research Rudolph Virchow and describe what his work contributed to the cell theory. 11. Using the internet, research Theodor Schwann and describe what his work contributed to the cell	7. What are the three assumptions of the cell theory?	
and describe what his work contributed to the cell theory. 10.Using the internet, research Rudolph Virchow and describe what his work contributed to the cell theory. 11.Using the internet, research Theodor Schwann and describe what his work contributed to the cell	somebody discovered a Martian creature that did	
and describe what his work contributed to the cell theory. 11.Using the internet, research Theodor Schwann and describe what his work contributed to the cell	and describe what his work contributed to the cell	
and describe what his work contributed to the cell	and describe what his work contributed to the cell	
	and describe what his work contributed to the cell
