

Name _____ Sequen

What a Change!

A butterfly and a frog change a lot as they grow from an egg to an adult. Number the stages of their life from 1 to 4.

Butterfly

- ☐ The caterpillar makes a silky case around itself called a chrysalis.

- ☐ A caterpillar hatches from an egg.

- ☐ The caterpillar eats and grows bigger.

- ☐ A butterfly comes out of the chrysalis.

Frog

- ☐ The tadpole begins to grow hind legs.

- ☐ The frog is able to hop out of the water. Its tail disappears.

- ☐ A tadpole hatches from an egg in water.

- ☐ The tadpole grows front legs. Its tail gets shorter.
