

## ROMAN NAMES FOR GREEK GODS

The Romans had very little mythology of their own. They took over the Hellenic idea completely; but they did rename the Greek gods, and often the Latin names are better known. Here are both sets of names:

<b>Hera</b>	Queen of Heaven.	<b>Juno</b>	
<b>Poseidon</b>	God of the Sea.	<b>Nephaus</b>	
<b>Hadès</b>	God of the Under-world.	<b>Pluto</b>	Strictly speaking, not a Latin name but a Greek word meaning "rich"—a name chosen to flatter a dangerous god. It is in this mood that those fearsome flying crosses, the Furies, Hadès' helpers, were called the <i>Eumenides</i> , or Kindly Ones.
<b>Athena</b>	Goddess of Wisdom.	<b>Minerva</b>	
<b>Artemis</b>	Moon-goddess, Queen of the Chase.	<b>Diana</b>
