

Chapter 8 Appendix

Lesson Plan Outline	Lesson Objectives	Lesson Plan
<p>1</p> <p>Why does the world not completely follow the simple laws of Newton?</p>	<p>1</p> <p>Students will understand the relationship between mass and force in Newton's second law of motion.</p>	<p>1</p> <p>Students will understand the relationship between mass and force in Newton's second law of motion.</p>
<p>2</p> <p>Newton's Law of Universal Attraction</p> <p>Newton's Law of Universal Gravitation</p>	<p>2</p> <p>Students will understand the relationship between mass and force in Newton's law of universal attraction.</p>	<p>2</p> <p>Students will understand the relationship between mass and force in Newton's law of universal attraction.</p>
<p>3</p> <p>Newton's Law of Universal Attraction and the Gravitational Constant</p> <p>Newton's Law of Universal Attraction and the Gravitational Constant</p>	<p>3</p> <p>Students will understand the relationship between mass and force in Newton's law of universal attraction.</p>	<p>3</p> <p>Students will understand the relationship between mass and force in Newton's law of universal attraction.</p>
<p>4</p> <p>Newton's Law of Universal Attraction and the Gravitational Constant</p>	<p>4</p> <p>Students will understand the relationship between mass and force in Newton's law of universal attraction.</p>	<p>4</p> <p>Students will understand the relationship between mass and force in Newton's law of universal attraction.</p>
