

Quantitative English
 Interpretative Processes in "WH" questions

Use interpretative processes that provide a range of information in different examples. Example:

1. "What is your name?" - Answer is: _____
2. "When do you start?" - Answer is: _____
3. "How many people are there in your class?" - Answer is: _____

Use questions with "whenever" to collect some information. Example:

1. In your class, _____? (By: How often do you work?)
2. Do you always _____? (By: How often do you study?)
