

## Checking Account

### A. Reading

Faye is engaged to her boyfriend Kyle. They plan to get married in May, and they are celebrating it with a party for the wedding and the honeymoon. Kyle wants to open a joint checking account for both of them now, but Faye refuses. She likes having her own bank account. She has a savings account and a checking account, and she doesn't want another account. Kyle is thrilled with his money, and if he opens a bank account with her, he might not have to explain why she wouldn't contribute from the account she might open. He has only the idea of opening a joint account with her account. Kyle thinks that Faye doesn't trust him. He asks her, "Can't you get excited if the bank opens it? What should I do?" She still has a joint checking account with Kyle.
