

intensity	intensity, which includes all of the ways that people are engaged in the study, including, but not limited to, their involvement in the design, implementation, and evaluation of the study, as well as their involvement in the dissemination of the study's findings.
intensity	intensity, which includes all of the ways that people are engaged in the study, including, but not limited to, their involvement in the design, implementation, and evaluation of the study, as well as their involvement in the dissemination of the study's findings.
intensity	intensity, which includes all of the ways that people are engaged in the study, including, but not limited to, their involvement in the design, implementation, and evaluation of the study, as well as their involvement in the dissemination of the study's findings.
intensity	intensity, which includes all of the ways that people are engaged in the study, including, but not limited to, their involvement in the design, implementation, and evaluation of the study, as well as their involvement in the dissemination of the study's findings.
intensity (if any)	intensity, which includes all of the ways that people are engaged in the study, including, but not limited to, their involvement in the design, implementation, and evaluation of the study, as well as their involvement in the dissemination of the study's findings.

1. The study team does not include representatives of the development of the study.
2. The study has large-scale consequences for the population that will be studied.
3. There are potential consequences for the study team.
4. The study will have an impact on the community that will be studied.
5. The study will have an impact on the community that will be studied.
6. The study will have an impact on the community that will be studied.
7. The study will have an impact on the community that will be studied.
8. The study will have an impact on the community that will be studied.
9. The study will have an impact on the community that will be studied.
10. The study will have an impact on the community that will be studied.
11. The study will have an impact on the community that will be studied.
12. The study will have an impact on the community that will be studied.
13. The study will have an impact on the community that will be studied.
14. The study will have an impact on the community that will be studied.
15. The study will have an impact on the community that will be studied.
16. The study will have an impact on the community that will be studied.
17. The study will have an impact on the community that will be studied.
18. The study will have an impact on the community that will be studied.
19. The study will have an impact on the community that will be studied.
20. The study will have an impact on the community that will be studied.
21. The study will have an impact on the community that will be studied.
22. The study will have an impact on the community that will be studied.
23. The study will have an impact on the community that will be studied.
24. The study will have an impact on the community that will be studied.
25. The study will have an impact on the community that will be studied.
26. The study will have an impact on the community that will be studied.
27. The study will have an impact on the community that will be studied.
28. The study will have an impact on the community that will be studied.
29. The study will have an impact on the community that will be studied.
30. The study will have an impact on the community that will be studied.
31. The study will have an impact on the community that will be studied.
32. The study will have an impact on the community that will be studied.
33. The study will have an impact on the community that will be studied.
34. The study will have an impact on the community that will be studied.
35. The study will have an impact on the community that will be studied.
36. The study will have an impact on the community that will be studied.
37. The study will have an impact on the community that will be studied.
38. The study will have an impact on the community that will be studied.
39. The study will have an impact on the community that will be studied.
40. The study will have an impact on the community that will be studied.
