

## Changing words with apostrophes

Do you know how to use an **apostrophe** to shorten words? Try shortening these words. The first one has been done for you. Remember, an apostrophe is used to show that one or more letters are missing.

could not      couldn't  
.....  
I will            .....

he will            .....

she will          .....

might not        .....

would not        .....

do not            .....

Now write out these shortened words in full without using an apostrophe.

mustn't          must not  
.....  
shouldn't        .....

we'll             .....

we're            .....

aren't            .....

isn't             .....

you'll            .....

couldn't         .....

didn't            .....
