

Deck-plate requirements survey; A School graduate ability

Data collected in this survey are anonymous. The demographic data in the source worksheet will be used to determine stakeholder representation.

Direct supervisors of HM and DT A School graduates are the target of this survey.

This is not an evaluation of the performance of the A Schools or their graduates.

Network with other supervisors of A School graduates in your unit to improve the accuracy of this data.

Please do not use the current A School curriculum to guide you as it will be reviewed in the Summit.

Please complete your source information on the Source worksheet (see tabs in lower left).

Within your area of healthcare delivery, what does an A School graduate need to be able to do when they report to duty?

Please enter your needs in the category below that best fits.

Prov. Type	Clinical Service or Department	Pay Grade	Command	Basic Science	Basic Administration	Emergency Care	Clinical Procedures	Other
