

COATER DATA WORKSHEET
(Fill Out One Sheet for Each Coater)

1. Business Name _____
2. Make, Model of Equipment _____
3. Year equipment was installed _____
4. Typical operating time: _____ hr/day _____ day/wk _____ wk/yr
5. Description of typical products coated: _____

6. Items Coated (check all that apply): metal plastic wood
 Other: _____ (describe)

Type of Coater

7. Spray booth
8. Roller coater
9. Flow coater
10. Dipping
11. Other _____ (description)

Spraying Method (check all that apply)

12. Air-atomized
13. Air-assisted
14. Airless
15. Electrostatic:
 - a. air atomized
 - b. airless
 - c. disc
16. HVLP (high-volume low pressure)
17. Other _____ (description)

Drying Method

18. Air dried
19. Drying/Curing Oven: (Please indicate make, model and Btu/hr rating)
 - Electric/Infrared _____
 - Gas fired _____
20. If more than **one** oven is associated with this coating source, please indicate how many, and provide a description for each _____

COATING USAGE			
	Coating Name, Code and Manufacturer	Coating Usage (gallons paint + thinner per year)	VOC Content (lb/gal) if known
Wash Primer			
Precoat			
Primer			
Topcoats			
Other			

Total maximum usage of all coatings, gal/yr _____
 Maximum cleanup solvent use, gal/yr _____
 Type of cleanup solvent used _____

Please include MSD or manufacturer's spec sheets for your coatings, thinners and cleaning solvents

Person completing form: _____ Name _____ Date _____
