

Name _____

Date _____

ARTH FUZZLE

LEVEL 2

WHAT COULD IT BE?

Divide. Circle each quotient in the puzzle.

1
$$\begin{array}{r} 75 \overline{) 257} \\ \underline{-225} \\ 32 \end{array}$$

2 $13 \overline{) 162}$

3 $25 \overline{) 775}$

4 $45 \overline{) 225}$

5 $54 \overline{) 756}$

6 $14 \overline{) 358}$

7 $45 \overline{) 451}$

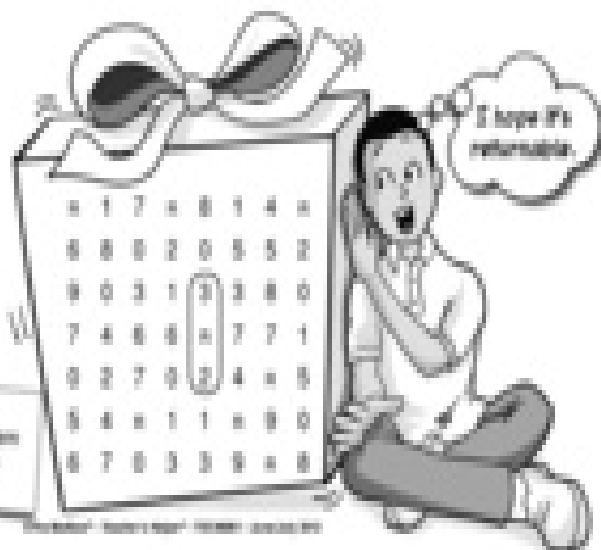

8 $35 \overline{) 85}$

9 $45 \overline{) 75}$

10 $64 \overline{) 432}$

11 $35 \overline{) 75}$

12 $2 \overline{) 34}$

Hint: In the puzzle, find a four-digit number and a two-digit number you didn't circle. Then write a division problem using the numbers as the dividend and the divisor. Solve the problem. Check your work using multiplication.
