

Use the prices to write addition problems. Find the sums.

a. $1 \text{ (smiley face)} + 1 \text{ (swirl)} =$
 $\underline{8} + \underline{7} = \underline{15}$ cents

d. $1 \text{ (swirl)} + 1 \text{ (smiley face)} =$
 $\underline{\quad} + \underline{\quad} = \underline{\quad}$

b. $1 \text{ (swirl)} + 1 \text{ (flower)} =$
 $\underline{\quad} + \underline{\quad} = \underline{\quad}$

e. $1 \text{ (swirl)} + 1 \text{ (U-shape)} + 1 \text{ (smiley face)} =$
 $\underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}$

c. $1 \text{ (U-shape)} + 1 \text{ (swirl)} =$
 $\underline{\quad} + \underline{\quad} = \underline{\quad}$

f. $1 \text{ (flower)} + 1 \text{ (swirl)} + 1 \text{ (swirl)} =$
 $\underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}$
