

Name: _____

Date: _____

Discover the Planets

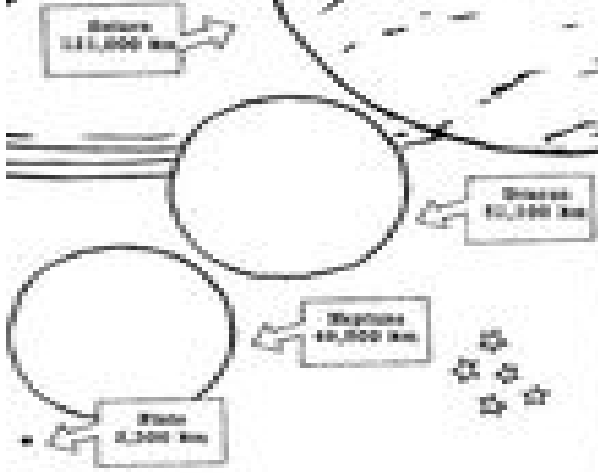

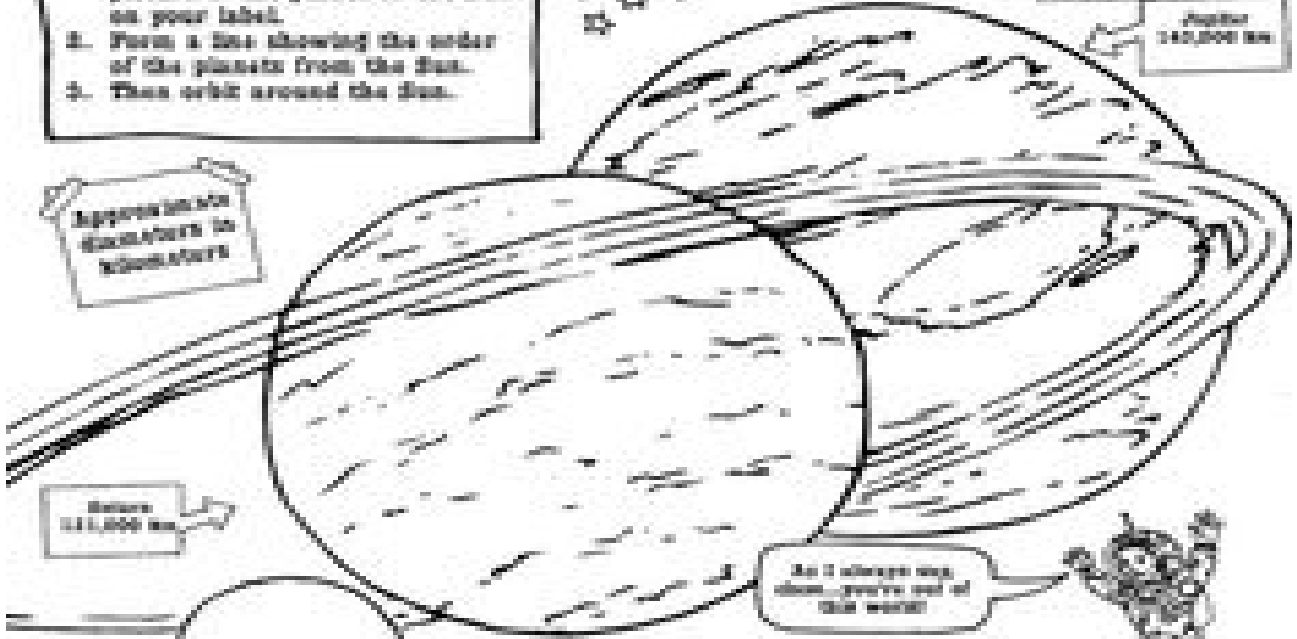

Be a Planet

Show the order of the planets in the Solar System.

1. Write the names and draw a picture of the planet or the Sun on your label.
2. Form a line showing the order of the planets from the Sun.
3. Then orbit around the Sun.

Approximate diameters in kilometers

Make a Model

1. Look at the balls and marbles. These objects stand for the planets.
2. Place them in the order of the planets to make a model of the Solar System.
