Plant (Apple) Graphing Practice

Directions: Read the following material, consider each line graph the data, then answer the questions that follow.

Etolose is a plant hormone that causes fruit to mature. The data below concerns the amount of time it takes for fruit to mature from the time of its first application. **List** graph the data and answer the questions that follow.

Amount of etolose in water ³	Yellow Apples Days to Maturity	Golden Apples Days to Maturity	Red Apples Days to Maturity
00	18	24	15
15	17	22	18
30	16	9	17
45	8	7	16
60	8	7	8
75	8	6	7

Graph This _____
