

Measurement

Activity: Measurement Jeopardy

TEKS: Grade 5 Measurement TEKS

Note: Portions of this lesson address TEKS at other grade levels as well; however, the intent of the lesson fits most appropriately at the grade level indicated.

Overview: This game will allow students to review some measurement concepts.

Materials: Timer
[Measurement Jeopardy PowerPoint Presentation](#)

Grouping: 2 groups

Time: 30 minutes

Lesson:

Procedures	Notes
1. Divide students into two teams and determine which team will go first.	
2. Have team members number off so that each team will know who answers first, second, third, etc.... In addition, designate a member from each team to serve as the scorekeeper for the team. The scorekeeper should keep a written record of each question's results on the team score.	
3. Advance the first few slides of the Measurement Jeopardy PowerPoint. (See the materials list for link to PowerPoint.) These first few slides will remind the players that answers must be phrased in the form of a question. Advance to the slide that shows the game board as shown below.
