Equal Parts

Directions: Divide the groups into equal parts and answer the questions. Show your work.

1. Carl's class of 30 was divided into 4 equal parts. One fourth of the class built Lego race cars. How many children built Lego race cars?

2. Candace found $400 in her sofa. She kept 1/5 of the money, and gave the rest away. How much did Candace give away?

3. Three-fifths of the animals on my farm are sheep. We have 45 sheep. One fifth are goats. One fifth are pigs. How many pigs do we have?

4. I won a 6 pound chocolate bar and broke it into 5 equal parts. How much did 2/5 of the chocolate bar weigh?

5. Nana gave my 30 yards of fabric with which to sew. 2/3 of the fabric will be used for curtains. How much fabric will be used for curtains?
