

PASSPORT TO ALGEBRA AND GEOMETRY

You should be able to cover the book over the 4 terms. You may need to do a chapter out of order to cover a concept before the MCAS (e.g. ch.14 mean, median, mode, etc.). If your students have mastery of a topic, move on. Some problems in the book are clearly meant to be done with a calculator. Please incorporate the use of calculators into your classroom routine.

Chapter 1	1.8 optional
Chapter 2	
Chapter 3	
Chapter 4	
Chapter 5	
Chapter 6	6.1-6.6 quick review; focus on students needs 6.7 6.8 6.9
Chapter 7	Make connection between 10%, 5%, 1%, 20% etc
Chapter 8	
Chapter 9	
Chapter 10	
Chapter 11	Omit 11.8, 11.9
Chapter 12	12.8 optional
Chapter 13	
Chapter 14	Do measures of central tendency, stem and leaf plots, box and whisker plots before MCAS
