Atmosphere

While watching, complete this video guide.

Three things I knew
that were confirmed in
the video:

A- _____

B- _____

C- _____

Three things I didn't know
but I now know because I
watched the video.

A- _____

B- _____

C- _____

- ___ Δ 1. The atmosphere can / cannot be described as an ocean made of air.
- ___ Δ 2. Compared to the size of the earth, the atmosphere is very _____.
- ___ Δ 3. Air, in the atmosphere, works to keep the world cold / warm.
- ___ Δ 4. The primitive atmosphere was held to the earth by _____.
- ___ Δ 5. The troposphere is the _____ and thickest layer of the atmosphere.
- ___ Δ 6. Generally, the lower / higher the air pressure on an object, like a plane, the higher its altitude.
- ___ Δ 7. In an airplane, you might feel your ears pop because the pressure is a lot lower / higher.
- ___ Δ 8. The atmosphere is _____ down on everything, all day, and all the time.
- ___ Δ 9. The highest places are coldest because those locations have more / less air.
- ___ Δ 10. The _____ rate is the rate at which things get colder by altitude.
- ___ Δ 11. The _____ effect is what happens when the atmosphere keeps a planet warm.
- ___ Δ 12. Without the atmosphere, the planet would be incredibly hot / cold during the day.
- ___ Δ 13. One of the causes of acid _____ is coal burning electric plants.
- ___ Δ 14. With proper equipment, a person can / cannot jump out of a plane and survive.
- ___ Δ 15. As you go higher up in the atmosphere, the air gets thinner and there is less _____ to breath.
