

Line

Line: An element of art that is used to define shape, volume, and surface, that to suggest mass and volume. It may be a continuous mark made on a surface with a pencil/brush or implied by the edges of objects and forms.

Characteristics of Line are:

- **Width:** _____
- **Length:** long _____ horizontal _____
- **Direction:** vertical, vertical diagonal, slanting _____, curved, parallel, wavy _____
- **Weight:** thin _____, heavy _____
- **Feeling:** strong, elegant, graceful _____

Types of Line:

1. **Outline Line:** form by the _____ of an object or its silhouette.
2. **Section Lines:** Lines that indicate the existence of an object's interior or a cut.
3. **Implied Line:** Lines that appear actually drawn but created by a _____ of objects seen from a distance. The directions are related to pointing to, or the direction of something looking at.

Draw the Lines:

1. Below are five boxes. Draw with the outlines of line for each box.
2. In the blank under the box come up with some the line that does (say it).
