

Index of Flashcards Teaching English Games

Even if you already have some flashcards that duplicate the vocabulary themes below, you can never have too many. This is because they can serve to enrich the kids visual/lexical association when seeing different images for the same word. It is useful to use different sets interchangeably because it keeps things fresh for the children and makes them think about the meaning of the word rather than just recognising the picture.

Summary of the Vocabulary Themes

1	Adjectives	22 pictures of contrasting adjectives
2	Alphabet	3 x 26 Letters of the alphabet in lower case & capitals
