

Integer Foldable Directions:

1. Fold 8.5 x11 paper in half (hamburger fold)
2. Open the paper up
3. On the inside, write "Rules" on the left-hand corner and "Examples" on the right-hand corner
4. Then fold paper in half again (hamburger fold)
5. Then fold into hot dog fold
6. When opened the paper should have eight rectangles
7. Take the paper and close like a book
8. On the front page of the book, write "Adding Integers" on the first rectangle
9. On the next rectangle write "Subtracting Integers"
10. Then "Multiplying Integers"
11. And Last "Dividing Integers"
12. Cut each rectangle on the front page only.
