

COLOR THEORY

Everytime I
use color,
I am creating
a color scheme.

← This is a color wheel.

The most common color schemes are listed below.

Secondary....  { I can mix two primary colors to make a secondary color.

Cool....  {Violet and all the colors with blue and green tones are cool.

Analogous... , , , , and so on.
(Colors that are close neighbors on the color wheel are analogous.)

Intermediate... is a color term I need to know. It is the color in between the primary and secondary colors on the color wheel.
