

Name _____

Count and Match

Identify equal amounts.

Draw a line to connect the groups that have the same number of objects.

The image contains two columns of objects for a matching exercise. On the left side, from top to bottom, there are: a group of 3 hearts, a group of 4 butterflies, a group of 5 circles, and a group of 1 house. On the right side, from top to bottom, there are: a group of 1 rabbit, a group of 5 motorcycles, a group of 3 stars, and a group of 4 leaves. A single line is drawn from the top-left group of hearts to the middle-right group of stars.
