Reteaching 6-6 Modeling Percents

A percent is a ratio that compares a number to 100. The figure at the right contains 25 squares.

 $\frac{9}{25}$ of the squares are shaded.

To write $\frac{9}{25}$ as a percent, follow these steps.

- ① Write a ratio with a denominator of 100 that is equal to $\frac{9}{25}$.
- Write the ratio as a percent.

$$\frac{9}{25} = \frac{9 \cdot 4}{25 \cdot 4} = \frac{36}{100}$$

$$\frac{36}{100} = 36\%$$

36% of the squares are shaded.

Write the percent of each figure that is shaded.

(J.

Write each ratio as a percent.
