

MAKING SHADOWS

After reading the book *Shadow* by Suzy Lee, let's create our own shadow! Line up some objects on the line. Have your partner hold the flashlight while you trace the outline of the shadow. After you have traced the shadow, hold the flashlight for your partner. Now, look at the shadows. What could this be a picture of? An elephant climbing a ladder? An alligator on top of a bed?

Now, write and tell me about your picture.
