SOLVING TWO STEP EQUATIONS MAZE

Find the correct path to the crown by solving equations.

$-7 + n/5 = -11$	-15	$9 = x/9 + 7$	-20	$3 = 5 + x/2$
-20		18		-4
$-3 = \dfrac{a-10}{3}$	1	$2 = \dfrac{x+2}{5}$	8	$3 + x/5 = 7$
-19		7		20
$-8 + n/3 = -5$	-9	$\dfrac{n-8}{2} = -4$	3	$p/15 + 5 = 4$
10		0		-15
$-108 = 5n - 8$	-3	$27 = -6n + 9$	4	$2 = x/4 + 1$
-20		15		-7
$-102 = -2 - 10p$	10	$1 = \dfrac{p-9}{10}$	19	👑
