Geography Skills Worksheet 3

◆ Ancient Egypt

1. List the four cities shown on the map.

2. The symbol  across the Nile River represents a _____.

3. Match each city with the appropriate geographic description.

- | | |
|-----------------|------------------------------|
| _____ Memphis | a. closest to stone quarries |
| _____ Akhetaton | b. closest to a gold mine |
| _____ Thebes | c. closest to Lake Morris |

4. Name three major temple sites in ancient Egypt.

5. In what direction does the Nile flow?

6. Using the scale of miles, estimate the shortest distance between each pair of locations.

- the Third Cataract and the Second Cataract
- mouth of the Nile to the First Cataract
- Giza pyramid to Karnak

7. How would the ancient Egyptians probably have made each of those journeys?
