

**Area**

Name: \_\_\_\_\_

Measure the length and the width of these regular shapes then find the area.

Area = length X width.

$$\begin{aligned} \text{Area} &= \_\_\_ \times \_\_\_ \\ &= \_\_\_ \text{ cm}^2 \end{aligned}$$

$$\begin{aligned} \text{Area} &= \_\_\_ \times \_\_\_ \\ &= \_\_\_ \text{ cm}^2 \end{aligned}$$

$$\begin{aligned} \text{Area} &= \_\_\_ \times \_\_\_ \\ &= \_\_\_ \text{ cm}^2 \end{aligned}$$

$$\begin{aligned} \text{Area} &= \_\_\_ \times \_\_\_ \\ &= \_\_\_ \text{ cm}^2 \end{aligned}$$

$$\begin{aligned} \text{Area} &= \_\_\_ \times \_\_\_ \\ &= \_\_\_ \text{ cm}^2 \end{aligned}$$

$$\begin{aligned} \text{Area} &= \_\_\_ \times \_\_\_ \\ &= \_\_\_ \text{ cm}^2 \end{aligned}$$

$$\begin{aligned} \text{Area} &= \_\_\_ \times \_\_\_ \\ &= \_\_\_ \text{ cm}^2 \end{aligned}$$

$$\begin{aligned} \text{Area} &= \_\_\_ \times \_\_\_ \\ &= \_\_\_ \text{ cm}^2 \end{aligned}$$

$$\begin{aligned} \text{Area} &= \_\_\_ \times \_\_\_ \\ &= \_\_\_ \text{ cm}^2 \end{aligned}$$

$$\begin{aligned} \text{Area} &= \_\_\_ \times \_\_\_ \\ &= \_\_\_ \text{ cm}^2 \end{aligned}$$

$$\begin{aligned} \text{Area} &= \_\_\_ \times \_\_\_ \\ &= \_\_\_ \text{ cm}^2 \end{aligned}$$

$$\text{Area} = \_\_\_ \times \_\_\_ = \_\_\_ \text{ cm}^2$$

Score \_\_\_\_\_
