

A black and white photograph of Nikola Tesla sitting in a chair, looking thoughtful with his hand to his face. The background is a dark, grid-like pattern of concentric circles and intersecting lines, resembling a wireframe or a technical drawing. The text is overlaid on the right side of the image.

“The day science
begins to study
non-physical
phenomena, it
will make more
progress in one
decade than in
all the previous
centuries of its
existence.”

— Nikola Tesla
