

Worksheet for Cellular Respiration and Photosynthesis (Chapters 6 and 7) Biology 160

1. What is the currency of the cell? Where is it made in the cell?
2. Draw a diagram of how the different foods that we eat can be turned into energy for the cell (see Figure 6.13)
3. Using glucose as a model food source, what is the overall equation for cellular respiration? Label the reactants and products.
4. What is the role of oxygen in cellular respiration?
5. Draw a mitochondrion and label its parts.
