

**Sights at the Zoo**

Read.

Decide if you must add or subtract.  
Write the math sentence.

A. The monkey has 9 bananas.  
It gets 3 more.  
How many bananas are  
there in all?

$$\underline{\quad} \bigcirc \underline{\quad} = \underline{\quad}$$

B. The elephant has 16 peanuts.  
It eats 7 of them.  
How many are left?

$$\underline{\quad} \bigcirc \underline{\quad} = \underline{\quad}$$

C. There are 18 parrots in a tree.  
Then 9 parrots go away.  
How many parrots are left?

$$\underline{\quad} \bigcirc \underline{\quad} = \underline{\quad}$$

D. There are 5 people at the  
hippo pool.  
Then 6 more people come.  
How many people are there  
in all?

$$\underline{\quad} \bigcirc \underline{\quad} = \underline{\quad}$$

E. The dolphin has 15 shows  
to do.  
It does 7 of them.  
How many shows does it  
have left?

$$\underline{\quad} \bigcirc \underline{\quad} = \underline{\quad}$$

F. There are 4 big lions.  
They have 7 lion cubs.  
How many lions are there in  
all?

$$\underline{\quad} \bigcirc \underline{\quad} = \underline{\quad}$$
