

Name _____

Date _____

READING COMPREHENSION

Read the story, then answer each questions!

Anthony's teacher, Mr. Rivera, gave the class a different kind of homework assignment. The assignment was to watch the weather report on television every night for a week. Mr. Rivera told the students some things to listen for as they watched each night's report. He also gave them a worksheet to fill out while they watched.

Mr. Rivera said to look at the large weather map that they would see behind the weather reporter. He told them that they might see a large blue line or a large red line on the map. There might be both a blue line and a red line. He said that a blue line is a high pressure area that usually brings dry weather. A red line is a low pressure area that usually brings wet weather. When blue and red lines meet, there usually is stormy weather on the way.

On the worksheet there was a box to fill in with the expected high temperature for the next day. There were other boxes to check if it was expected to rain, or to be cloudy, or to be windy.

Anthony watched the weather report and filled in the worksheet each night. He noticed that the next day was usually a lot like the report said it would be. One day's weather map showed a blue line right next to a red line, and the next day there was a rainstorm. Anthony decided that he liked this kind of homework assignment.

1. What is the main idea of the first paragraph?

2. What is the main idea of the second paragraph?

3. What is the main idea of the third paragraph?

4. What is the main idea of the fourth paragraph?
