

## MILK GLUE

## BONUS ACTIVITY

### What you need:

- A tall, clear glass
- Non-fat or skim milk
- White vinegar
- Paper towels
- 2 pieces of paper

### What you do:

- 1 Put seven tablespoons of non-fat or skim milk into your tall glass.
- 2 Add a tablespoon of white vinegar to the milk. Are you seeing some nice chunks appear?
- 3 In about a minute, the chunks will settle to the bottom of the glass. Drain off the liquid by pouring the mixture through a paper towel.
- 4 Pat the chunks with a paper towel to absorb any excess liquid.
- 5 Now, coat two pieces of paper with your slimy solids, stick them together and let dry.

Does your homemade glue work compared to tape or other glues?
