

Name: \_\_\_\_\_ Date: \_\_\_\_\_

Complete the table on page 48, Section 2. If available, give quantitative values for temperature and rainfall. If quantitative values are not given, use qualitative descriptions (e.g., hot, cold, moderate for temperature, or low, high, moderate for precipitation). Use any research values in your lab/field library.

Biome Type	Temperature range (highest)	Temperature range (lowest)	People within annual range	Typical Vegetation	Typical Animals	Approximate Latitude
Hot, dry desert						
Tropical rain forest						
Temperate (deciduous) forest						
Tundra (boreal forest)						
Savanna						
Temperate grassland						
Tundra
