

Do you have a piggy bank, or a savings account at the bank? Is it hard not to spend all that money you are saving? Well, that is what money is for. People work to earn money in order to buy goods and services. What are goods and services? Well, goods are things you buy with your money. Services are actions people may do for you, such as mow your lawn, fix your car, or visit your home.

**Directions:** Think about something you would like to purchase. How will you earn the money to buy this good or service? How much money do you need to save? Write a short story about your plan to save money, and on what good or service you will spend it.

Think about a good or service YOU would like to sell. What service might you provide, or how might you create to sell? What would you charge? How would you attract people?

Use [styling](#) to emphasize your plan or ideas.
