Write all the possible genotypes

Expression of Dominant Trait	Genotype	Expression of Recessive Trait	Genotype
Freckles [use F & f]	Ff, FF	No freckles	ff
Dark eyes [use B & b]		Blue eyes	
Free earlobes [use E & e]		Attached earlobes	
Six fingers / toes [use P & p]		Five fingers or toes	
Cheek dimples [use D & d]		Lack of dimples	
Full lips [use L & I]		Thin lips	
Widow's peak		Straight hair line	
$oldsymbol{W}=$ dominant widow's peak allele			
\mathbf{w} = recessive straight hairline allele			
Tongue roller [use R & r]		Cannot roll tongue	

Solve the pedigree analysis problems

A human geneticist determined the pedigree shown in the diagram with filled symbols showing the affected individuals. How is this pattern of inheritance described?

A. autosomal dominant B. autosomal recessive C. sex linked recessive D. sex linked dominant
