

**NORTHERN CAMBRIA SCHOOL DISTRICT
PLANNED COURSE**

Course Title: Home Economics

Grade Level: Sixth

Estimated Time: 5 periods per week for 9 weeks

Credit:

Textbook: Young Living, 6th edition, 1994, Glencoe

Course Description:

Home Economics for 6th graders provides a solid foundation in Home Economics. Foods and nutrition is discussed in the context of breakfast foods. Family development is considered through child care and development. Basic fabric and consumer information is presented while creating original banners. Resource management is threaded through all areas.

Course Objectives:

All students will

1. experience working as a member of a team.
2. explore his/her potential in homemaking skills.
3. consider the importance of nutrition when planning breakfast.
4. see how to finish a basic edge of fabric.
5. practice safe operating procedures for machines and equipment.
6. observe and interact with preschool and school age children.
7. practice child care techniques.
8. evaluate lab work and time management skills.
