ANIMAL SHADOW

Draw lines to match the correct form of shadow for each animal!

The image shows a matching exercise for animal shadows. On the left, there are six colorful illustrations of animals: a penguin, a lion, a blue elephant, a blue hippo, a tiger, and a green turtle. On the right, there are six gray silhouettes of the same animals. A dotted line connects the penguin illustration to the penguin silhouette. Each animal has a small black dot next to it for marking.
