15 Sections, 55+ Questions. Total marks 84

Marks shown in brackets for each question (2)

Question	Type of question	Marks
1	Using letters instead of unknown numbers Writing an equation	4
2	Simplify – collecting like terms	5
3	Expanding – use of brackets	3
4	Factorising – taking out a common factor	4
5	Making equations	5
6	Formula; area circle	4
7	Substitution – using given values in equations	6
8	Two bracket expansion	6
9	Inequalities	4
10	Subject of the formula	6
11	Solve equation	7
12	Trial & Improvement	8
13	Powers or Indices, reciprocal	5
14	Graphs – linear & quadratic. Gradient Graphing simultaneous equations	10
15	Using algebra to find angles	7
