

Horizontal: Across

- 1. The process of a cell dividing to form two daughter cells
- 2. The process of a cell dividing to form four daughter cells
- 3. The process of a cell dividing to form two daughter cells, one of which is larger than the other
- 4. The process of a cell dividing to form two daughter cells, one of which is smaller than the other
- 5. The process of a cell dividing to form two daughter cells, one of which is larger than the other and one of which is smaller than the other
- 6. The process of a cell dividing to form two daughter cells, one of which is larger than the other and one of which is smaller than the other
- 7. The process of a cell dividing to form two daughter cells, one of which is larger than the other and one of which is smaller than the other
- 8. The process of a cell dividing to form two daughter cells, one of which is larger than the other and one of which is smaller than the other
- 9. The process of a cell dividing to form two daughter cells, one of which is larger than the other and one of which is smaller than the other
- 10. The process of a cell dividing to form two daughter cells, one of which is larger than the other and one of which is smaller than the other

Vertical: Down

- 11. The process of a cell dividing to form two daughter cells, one of which is larger than the other and one of which is smaller than the other
- 12. The process of a cell dividing to form two daughter cells, one of which is larger than the other and one of which is smaller than the other
- 13. The process of a cell dividing to form two daughter cells, one of which is larger than the other and one of which is smaller than the other
- 14. The process of a cell dividing to form two daughter cells, one of which is larger than the other and one of which is smaller than the other
- 15. The process of a cell dividing to form two daughter cells, one of which is larger than the other and one of which is smaller than the other
- 16. The process of a cell dividing to form two daughter cells, one of which is larger than the other and one of which is smaller than the other
- 17. The process of a cell dividing to form two daughter cells, one of which is larger than the other and one of which is smaller than the other
- 18. The process of a cell dividing to form two daughter cells, one of which is larger than the other and one of which is smaller than the other
- 19. The process of a cell dividing to form two daughter cells, one of which is larger than the other and one of which is smaller than the other
- 20. The process of a cell dividing to form two daughter cells, one of which is larger than the other and one of which is smaller than the other
