

SEVENTH GRADE PACING GUIDE 2006-2007

Life Science

1 st Quarter (Pages 2-5)	2 nd Quarter (Pages 6-7)	3 rd Quarter (Pages 8-13)	4 th Quarter (Pages 14-18)
LS. 1 a-j Page 2 Scientific method Metric measurements	LS. 2 d Page 6 Cell processes and cell division	LS. 14 a-c Page 9 Evolution and adaptation	LS. 6a-c Page 15 Plants and photosynthesis
LS. 4 a-c Page 3 Characteristics and needs of living things	LS 13 a-g Page 7-8 Heredity, DNA, and genetics	LS. 5 a-c Page 10 Classification	LS. 7 a-d Page 16 Energy flow within food webs Cycles of abiotic elements
LS. 2 a-c Page 4 Cell theory and structure of cells		LS. 9 a-e Page 11 Interactions within a biological community	LS. 10 a,b Page 17 Biomes and ecosystems
LS. 3 a,b Page 5 Cellular organization		LS. 8 a,b Page 12 Interactions among populations	LS. 11 a-c Page 18 Changes within an ecosystem
		LS. 10 c Page 13 Adaptations for a specific ecosystem	LS. 12 e Page 19 Environmental issues
		LS. 12 a-d Page 14 Relationships between ecosystems and human activity
